“ I first met John when I was 28 years old after getting job as a Jr Technician in the Engineering department at Unison. He made me feel comfortable right away in my new position. He was a great mentor. I learned so much from him. I still work at Unison today, 40 years total now at the company. I still remember things that I learned from John that has helped me grow in my position as an Engineer Test Specialist. I find myself passing on that same knowledge to the people I mentor. I'm very sorry for your loss. John was truly a great guy.

“ John was a wonderful kind man that we had the pleasure of knowing at Christ episcopal church in Greenville. John regaled us with many amazing stories of his hikes and his knowledge of the outdoors. He was a gentle man, always ready with a laugh and always a patient listener. He and Sally welcomed us with loving arms to this church. We shall miss him always.
