“ We miss and love you so much!!! I still can't believe you are gone just like that. I wish we were able to see you more often before you passed away... You're favorite little girl that we all knew you loved dearly Angel misses you so much. I hope you're watching over my little girl as she is always asking for you.. we always sit outside on the porch at night and talk to you. all she asked for, for Christmas was to have her poppy back it killed me to tell her I can't bring you back. If I could I would in a second💔 I hope you are resting in heaven peacefully and I hope to see signs of you around in the near future. Love always Angel and Jennifer.

“ *"Instead of this being a memory- unfortunately it's a message to my father in heaven" from his only daughter Bonny Homeyer!! It was only August of this year when you asked me to bring you to your first appointment- "thought it was a 10 minute ultrasound & turned into 4 hours & I knew that day - it wasn't good - & then the 2nd appointment 2 weeks later biopsys... I remember telling you "don't worry dad you'll be fine & you'd be amazed what the doctors could do" I can't tell you how guilty I feel for telling you that!! After the appointment you insisted on going back to work!!! If I could turn back time I would have just kept you in my car & drove around listening to your old country music!!! I am REALLY upset that after that day - "your son who did not talk to you for 4 years took control of everything "dad I can't even get ashes from this funeral home, I couldn't even talk to a doctor about your health problems, the doors you never locked & kept open for EVERYONE were changed & even cameras put up & your phone hooked up to TV to see who called. "Not to mention the people that haven't been around in 20years .. suddenly coming to see you - regardless of my opinion I'm sure you loved it. I know you were getting weak & I told you I didn't like seeing you like that - unfortunately those people were not at your birthday party I had for you last year "judged me because I wasn't there everyday at the end" - the Sunday before you passed I knew was going to be my last time seeing you... I couldn't see you like that !! I prayed God would help you so you didn't suffer anymore & I still can't believe how the past 6 months have changed our family. I have so many memories from you building my kids first wooden playset, to the all night campfires, old country music, my visits bringing you breakfast on Sundays, & going to Thatcher Park "after all it was your favorite place" - &- gosh dad I still can't believe the gardens you would have every year with those Giant vegetables... I will miss not being able to call you when I need you most!!! I'm very upset about our family- but "time heals everything" & I will keep you in my heart forever ❤️ love you & I'm so sorry that I told you'd be ok!!! Love BonnyAnn*
